Kneska Skin Masks

KNESKO takes holistic skin care to the next level by bringing together the latest scientific advances with powerful and positive Reiki energy practices that awaken the body's Chakras, or energy centers. Our groundbreaking trade-secret formulas use top active and clean ingredients to help penetrate and nourish your skin, giving you that deep inner glow.

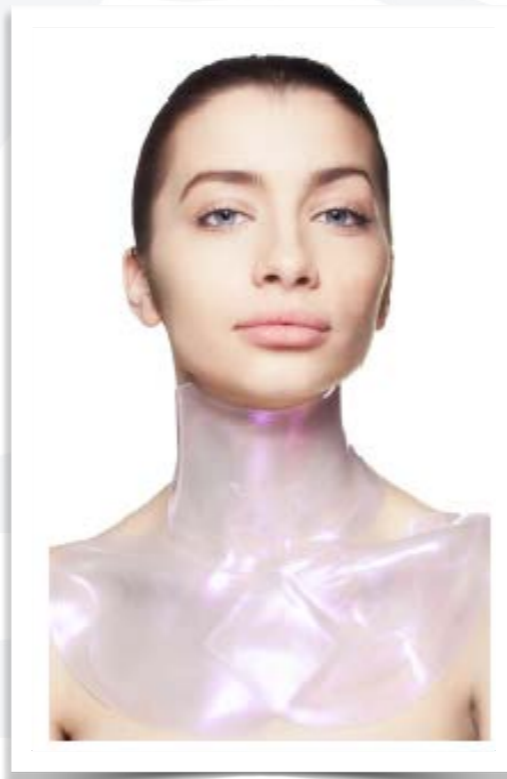

KNESKO is all natural, and:

- Uses proprietary GEMCLINICAL® technology
- Utilizes the ancient healing energy of Reiki
- Contains Chakra balancing ingredients
- Embodies precious gemstones and minerals

GEMCLINICAL® technology blends the special properties of precious minerals and gemstones with our own proprietary skincare formulas packed with active and clean ingredients. All of our products are then charged with loving, healing Reiki energy.

Reiki is the life energy that flows through all living things. Reiki energy should be strong and free-flowing. When energy is blocked or weak, physical and emotional imbalances can occur.

Chakras represent energy centers within the body that help regulate its processes, from organ function to the immune system and emotions. There are 7 chakras positioned throughout your body, from the base of your spine to the crown of your head.
