

OUR SUMMER FAVOURITES

# Ideas for you - SPECIAL ONBOARD SERVICE

## *Pillow Menu*

Allow your guests to try the best type of pillow to suit their individual needs and preferences by offering them a choice of the pillows during their stay on board.

A big part of getting a good rest is having the right pillow.

“It’s more than just comfort, it’s also part of your general health.”

With a pillow menu, you’ll find a range of options to ensure your guests will have a peaceful sleeping experience no matter their needs.

You can choose from soft, medium, firm and foam pillows

Contact us for different choices to suit your needs.

## NANOVI EXO™ - STANDARD 15-MINUTE SESSION TIME

It is simply not possible to keep up with everyday cell damage.

NanoVi® helps, non-invasively and without chemicals.

NanoVi® helps repair everyday cell damage caused by what you eat, what you breathe, what you are exposed to, and oxidative stress.

Do you want to strengthen your immune system, increase your vitality, and slow the aging process?

Eng3's patented NanoVi® technology produces the same biological signal your body makes to repair cell damage brought on by free radicals (also known as reactive oxygen species or ROS).

The signal from the NanoVi® device supplements the ones your body makes naturally.

The problem is, if you don't make enough of the signal necessary to repair all the damage caused by free radicals, oxidative stress accumulates. And when free radicals and oxidative stress have the upper hand, you lose.

## BODY SLIMMING 40K SYSTEM LW-101 MACHINE

- Multifunctional: It includes three functional beauty heads, which can effectively burn calories and achieve the effect of removing fat. At the same time, it will promote the metabolism, thus restoring elasticity, calming and moisturizing effects to your skin. Can provide effective and targeted treatment. If you use our machine you will find out how amazing it is!
- Safe Fat Reduction: The 40k Ultrasonic Cavitation Cellulite Slimming Machine can effectively break down fat cells immediately. Dissolve fat, lymphatic drainage, improve blood circulation, accelerate the decomposition of fat, achieve fat loss and body sculpting effects, allowing you to maintain a slim body. Without causing damage to other parts of the body, it is safe and effective.
- Multi-effects: This 40k ultrasonic cavitation cellulite slimming machine can effectively break down fat cells immediately. Remove facial wrinkles, dilute facial freckles, remove excess fat, and the skin becomes clear and smooth. The skin of the eyes is firm, wrinkles are smoothed out and dark circles are reduced. Shrink pores, tighten sagging skin and remove double chin.

## INTRACEUTICALS OXYGEN MACHINE

Intraceuticals' proprietary 3 Step Hyaluronic Layering is an underpinning philosophy behind the entire Intraceuticals product range.

The layering process combines three specific combinations of Hyaluronic which work together to provide perfect hydrodynamics designed to deliver hydration and ingredients to the upper layers of the skin.

Intraceuticals revolutionised the use of multi-weight Hyaluronic as both an exceptional hydrator as well as an effective delivery system for anti-ageing and specific concern ingredients. Cutting edge research led to the development of Intraceuticals' patented "3 Step

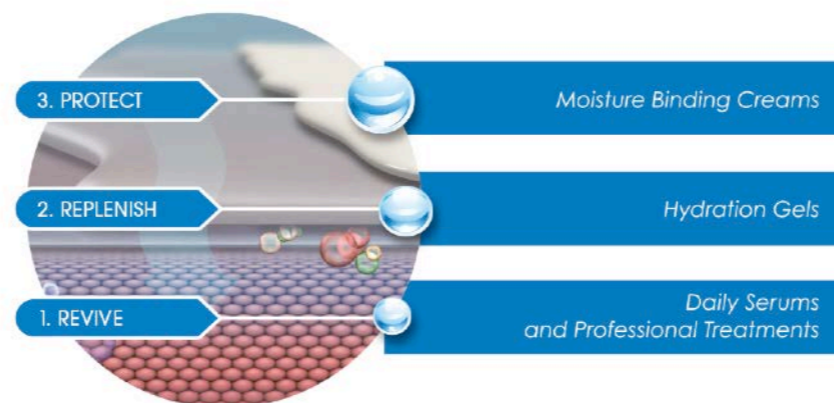

Hyaluronic Layering" technology which is the foundation of Intraceuticals skincare.

- 1 - Satiated skin micro HA and actives
- 2 - Surround cells in an active reservoir to sustain day-long medium HA & more
- 3 - Bind the matrix in, keep dryness and free radicals out large HA as barrier

### 3 STEP HYALURONIC LAYERING

- 1 Reviving System (serums)**  
Low weights of Hyaluronic revive the skin drawing moisture and effective ingredients to the skin resulting in improved skin volume and hydration.
- 2 Replenishing System (gels)**  
Medium weights of Hyaluronic replenish the skin and provide a reservoir of effective ingredients for the skin to draw from all day long.
- 3 Protecting System (creams)**  
High weights of Hyaluronic protect the skin from dryness and harsh environmental conditions, holding moisture to the skin, providing a breathable barrier.

### OPTIMUM RESULTS ACHIEVED THROUGH 3 STEP HYALURONIC LAYERING

## WELLBOX S FACE & BODY

Thanks to Wellbox®[S] the most effective anti-aging and slimming technologies on the market are now at your fingertips.

This innovative product will meet all of your beauty goals, whatever they may be.

Wellbox®[S] is the next generation Wellbox® ; its SPS+ technology provides 2x more firming action\* thanks to a more effective suction frequency.

A more vibrant body, smoothed dimples, even a younger-looking face... At home, only 6 minutes a day.

### Cellular stimulation

Wellbox®[S] cellular stimulation is a 100% natural, non-invasive, and non-aggressive method.

The micro-aspirations of the different Wellbox®[S] treatment heads create a tissue wave capable of gently stimulating the skin.

Now equipped with the new 16 Hz suction (16 suctions per second), the treatment heads reinforce the skin structure and reshape the contours of the body and face. But not only that...

This high-tech product conceals its technology behind a pure, refined, and elegant design.

Invented, manufactured, and assembled in France.

Wellbox®[S]: 5 interchangeable treatment heads, a multitude of uses.

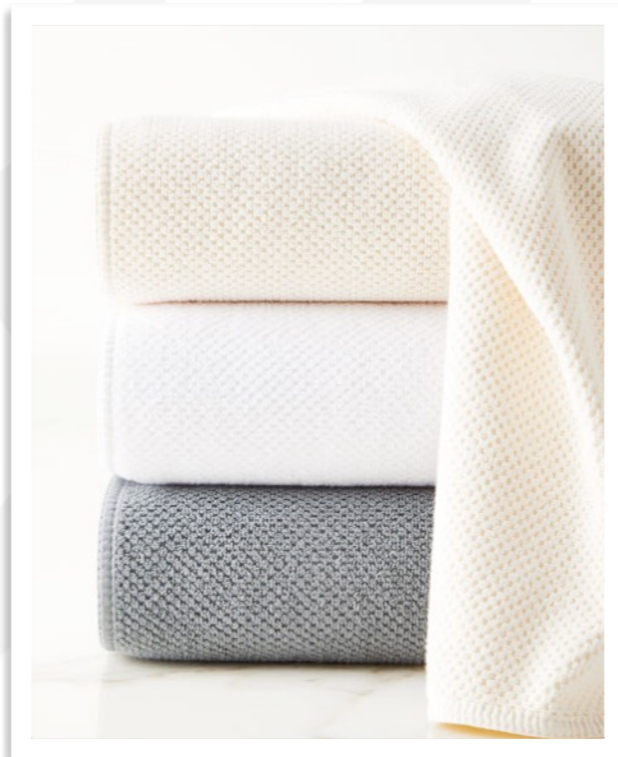

For the body  For the face

### 2 LIFT heads : For a youthful face

The flap beats, combined with a sequential suction of the LIFT heads, intensely stimulate the skin. This skin fitness wakes up dormant fibroblasts (skin youth cells), which synthesize once again collagen, elastin and hyaluronic acid.

- 1 Brighten your complexion
- 2 Smooth fine lines and wrinkles
- 3 Refresh your eyes
- 4 Firm facial contours
- 5 Tone your décolleté
- 6 Release fat
