Is Clinical

At iS Clinical, they innovate clean, multitasking skincare solutions that offer excellent benefits for a wide variety of skin types, ages, and genders. Their results-oriented products work the most magic when used together in a four-step regimen to CLEANSE, TREAT, HYDRATE, and PROTECT your complexion.

Thalgo

The world leader in professional Marine Cosmetics. Thalgo infuses this marine energy into beauty products, nutritional supplements and protocols that revitalise body and mind.

Thalgo has always chosen to explore the entire world in search of water rich in trace elements.

The Thalgo laboratory relies on a multidisciplinary scientific team including pharmacists, research engineers, microbiologists and biochemists.

They work in close collaboration with expert phycologists and experienced dermatologists to develop active ingredients and formulas that are more effective than ever.

Phytomer

Phytomer develops high-performance natural skincare products in France that respect both the skin and the environment. They produce their own ingredients and manufacture their products themselves in their state of the art Laboratories on the Mont-Saint-Michel Bay according to the strictest safety and quality guidelines in the world.

La Bruket

La Bruket ingredients are inspired by and come from nature. From seaweed to essential oils to natural foaming agents derived from coconut, each ingredient in their products has been specifically selected for its quality as well as its nourishing and protective properties. La Bruket products are rich in vitamins, nutrients and antioxidants that come from nature itself.

Dr Hauschka

Dr hauschka actions have been focused on the idea of sustainability since long before this was coined as a term. After all, natural cycles and the power of vital, unpolluted raw materials form the basis of all Dr.Hauschka products.

Imagine this company as a flourishing garden: they work as carefully and responsibly as possible, base their actions on nature's rhythms, value manual work and see the merits of both a healthy compost and a rich harvest.

Thalion

In Brittany, France, Thalion laboratories carefully select and harvest the richest seaweeds from the Iroise Sea. This unique know-how as a harvester enables them to preserve the original qualities of these precious plants to deliver them in new formulas with the power to create beauty and well-being.

RBI understands that just because you have purchased the equipment and products doesn't mean that you are ready to receive your clients.

RBI will support you from concept to doors open, providing you with the most suitable equipment, a large choice of ranges of professional products and the associated training packages to accompany those products.

N.B. Due to the limited number of trainers for many of the suppliers, it is advisable to make arrangements well in advance to avoid disappointing your guests.

Green People

From youth-boosting Baicalin to restorative Squalane, Green People carefully select natural ingredients that are bursting with amazing benefits for skin and hair.

The provenance of their ingredients is important to them and they always prioritise certified organic, ethical sources.

Green People continues to expand its range of innovative certified organic products, each one created using a wealth of knowledge and drawing on the balance of nature and science.
